

IPET 132 “PARAVACHASCA”

- **CURSOS:** 6to “A” y “B”
- **ESPACIO CURRICULAR:** INGLÉS
- **PROFESORES:** -VILLAGRA, AYLÉN CELESTE (A)

SECUENCIA N°1: HERRAMIENTAS, IMPERATIVO Y CONDICIONAL 1

OBJETIVOS:

- ◇ Identificar y clasificar herramientas y equipos de laboratorio utilizados en electromecánica.
- ◇ Comprender y usar el modo imperativo para dar órdenes e instrucciones en el taller.
- ◇ Aplicar el primer condicional para hablar sobre consecuencias y advertencias en situaciones técnicas.
- ◇ Leer y comprender textos técnicos relacionados con la especialidad.

Hi students, welcome back!

A. WORKSHOP TOOLS AND LAB ELEMENTS.

TYPES OF WORKSHOP TOOLS

Lab Equipment Pictures

Activity 1:

- ➔ Match the tool names with their corresponding images.

Activity 2:

- ➔ Categorize the tools and equipment.

Categories:

1. Measuring Devices
2. Hand Tools
3. Power Tools
4. Holding and Supporting Tools
5. Cutting Tools
6. Lab Equipment

WORKSHOP TOOLS	LAB EQUIPMENT
1. Duct tape 2. Piler 3. Anvil 4. Chisel 5. Mallet 6. Hammer 7. Drill 8. Tape measure 9. Hacksaw 10. Extension cord 11. Screwdriver 12. Screw 13. Ruler 14. Shear 15. Clamp 16. Brace 17. Level 18. Hacksaw 19. Crowbar	1. Breaker 2. Test tube 3. Funnel 4. Thermometer 5. Microscope 6. Ph meter 7. Graduated cylinder 8. Pipette 9. Petri dish 10. Bunsen burner 11. Erlenmeyer Flask 12. Stirring rod

Activity 3: What for? ¿Para que sirve cada herramienta?

 **Instrucciones:** Completa las siguientes oraciones con el nombre de la herramienta correcta.

 **Ejemplo:** *You use a **multimeter** to measure voltage.*

Drill / Bunsen burner / clamp / level / ruler / crowbar

- A _____ is used to hold pieces together while you work on them.
- If you need to remove a nail, you can use a _____.
- To check if a surface is perfectly horizontal, you need a _____.
- A _____ helps you measure and mark straight lines.
- If you want to drill a hole in wood, you need a _____.
- A _____ is a laboratory tool used to heat substances.

B. THE IMPERATIVE

El **imperativo** es fundamental para dar órdenes, instrucciones y advertencias en un entorno técnico. Se usa en manuales, señales de seguridad y procedimientos de trabajo.

 **Reglas básicas:**

- **Forma afirmativa:** Usa el verbo en infinitivo sin "to".
*Example: **Wear** safety goggles.*
- **Forma negativa:** Usa "Don't" + verbo.
*Example: **Don't touch** hot surfaces.*

🌟 Usos comunes en el taller:

- ✓ **Órdenes directas:** *Turn off the machine.*
- ✓ **Instrucciones:** *Place the tool on the table.*
- ✓ **Advertencias:** *Don't use wet hands.*
- ✓ **Sugerencias (más amables):** *Please check the cables before use.*

Activity 1: Follow the Instructions! Elige la opción correcta para completar la oración en imperativo con la herramienta adecuada.

1. _____ **carefully when you need to cut a metal pipe.** (a) Use a hacksaw **b)** Hold a ruler **c)** Plug in a drill
2. _____ **before checking if the surface is level.** (a) Tighten the clamp **b)** Place the level **c)** Cut the pipe
3. _____ **to secure the metal pieces before welding.** (a) Hold the screwdriver **b)** Use the clamp **c)** Measure the voltage
4. _____ **before heating the liquid in the test tube.** (a) Wear safety goggles **b)** Cut the wire **c)** Hold the chisel
5. _____ **to measure the exact amount of liquid needed.** (a) Take the hacksaw **b)** Use the graduated cylinder **c)** Tighten the screw
6. _____ **before drilling a hole in the metal plate.** (a) Secure the piece with a clamp **b)** Hold the thermometer **c)** Light the Bunsen burner

Activity 2: SAFETY RULES

🌟 **Instrucciones:** ➡ Crear carteles con órdenes en imperativo para el taller.

📄 **Ejemplo:**

🚫 **DO NOT ENTER WITHOUT SAFETY GLOVES!**

⚡ **TURN OFF THE POWER BEFORE REPAIRING!**

C. CONDITIONAL SENTENCES TYPE 1

El primer condicional se usa para hablar de posibles consecuencias en el futuro.

🌟 **Estructura:** 🖐️ **If + Present Simple, Future Simple (will + infinitive verb)**

📄 **Ejemplo:**

- ✓ If you **don't wear** gloves, you **will burn** your hands. (Si no utilizas guantes, te vas a quemar las manos)
- ✓ If the machine **overheats**, it **will stop** working. (Si la máquina se sobrecalienta, dejará de funcionar)
- ✓ She **won't graduate** if she **doesn't study** (Ella no se va a graduar, si no estudia)

Hagamos un repaso juntos de ambos tiempos verbales antes de continuar con las oraciones condicionales.

The simple present and the future simple (Will)

Activity 1: Match the condition with the correct result (unir la condición con el resultado correcto)

Condition	Result
1. If the machinery overheats, 2. If the conveyor belt breaks down, 3. If the temperature in the food processing area exceeds the safety limit, 4. If the electrical panel has a fault, 5. ? If the raw materials are not stored correctly,	a. the food products will become contaminated. b. the emergency shutdown will activate. c. the production line will stop. d. the technicians will inspect it immediately. e. it will trigger a fire alarm.

Activity 2: Read and choose the correct option (lee y elige la opción correcta)

1. If the sensors detect a gas leak, the system _____ (will shut down / shut down).
2. If the workers follow safety protocols, they _____ (will prevent / prevented) accidents.
3. If the maintenance schedule is not followed, the equipment _____ (will fail / failed).
4. If the ingredients are measured accurately, the product quality _____ (will improve / improved).
5. If the power supply is stable, the robotic arms _____ (will operate / operated) efficiently.

**READING ACTIVITY: SEGURIDAD EN EL TALLER****Workshop Safety Rules**

In an electromechanics workshop, safety is essential. If you don't follow the rules, you can get injured. First, always wear protective equipment. If you work with high voltage, you must use insulated gloves. Don't use wet hands when handling electrical devices. Before starting a repair, turn off the power supply. If the machine overheats, stop it immediately. Never leave tools on the floor because someone might trip. Follow these rules, and you will work safely!

A. Read the text and create a glossary with the new words or expressions.

B. Underline the conditional sentences

C. Highlight the imperative sentences.

D. Work on the true / false activity:

1. Wearing protective equipment is optional in the workshop.
2. Insulated gloves are required when working with high voltage.
3. It is safe to use wet hands when handling electrical devices.
4. You should turn off the power supply before starting any repair.
5. If a machine overheats, you should continue working with it.
6. Leaving tools on the floor is a safe practice.
7. Following the safety rules ensures a safe working environment.

Criterios de evaluación:

- Presentar este trabajo **completo** en tu carpeta de inglés, en tinta y con letra clara.
- Colocar nombre y apellido a cada hoja y enumerarlas.
- Saber expresar normas de seguridad empleando el vocabulario específico.
- Participación activa en clase.

Próximo trabajo práctico: conditionals type 2.
